

CHIHUAHUA CITY CAPTURED BY REBELS; REBELLION IS SPREADING OVER NATION

Rebels Approach Matamoros Opposite Brownsville, Tex.

BULLETIN

By Associated Press Leased Wire
El Paso, Texas, May 1.—That Colonel Augustin Mora, commander of the Juarez garrison, who hurriedly crossed the international line here shortly after midnight, is fleeing Juarez because of anticipated revolt in that city, was the claim today in anti-Carranza circles here.

By Associated Press Leased Wire

El Paso, Texas, May 1.—The serious situation in Chihuahua as the result of the Sonora revolt against the Carranza government was brought home to border residents today with announcement of the fall of Chihuahua City, state capital, and the statement that Colonel Augustin Mora of the Juarez garrison had left that city and was on his way to Mexico City by way of Laredo for a conference with President Carranza. Colonel Mora was ordered to Mexico City by General J. G. Escobar, commander at Juarez. He passed thru El Paso shortly after midnight.

Almost simultaneously with announcement from Juarez admitting the state capital was in the hands of the rebels, it was stated that Elia De La O, civilian commander of the loyal troops at Chihuahua City was on his way to Juarez with the remnants of his command. He was expected here today.

To Defend Juarez

Both General Escobar and Colonel Mora last night declared their loyalty to the Carranza government and pledged their honor as soldiers to the defense of Juarez.

The approach of the rebel leader, Juan Andrew Almazan toward Matamoros, the Mexican port opposite Brownsville, Texas, came as no surprise to those near here familiar with the rebellious movement. It was reported that the rebels had cut the railroad line south of Matamoros, preparatory to the advance of troops toward the border.

Put Steel Ring of Rebels About Capitol

By Associated Press Leased Wire
Agua Prieta, Sonora, May 1.—Mexico is honeycombed with revolution and instead of the "steel ring" of soldiers President Carranza of Mexico announced would be put around Sonora, the first state to secede from Carranza, the rebels have put a "steel ring" of revolutionary soldiers about Mexico City and in every state except one. General A. I. Villarreal said here today in making public the accomplishments of the revolution in less than one month since it began.

General Villarreal came here from El Paso to discuss the revolutionary situation with General P. Elias Calland, commander of the revolutionary forces in the northwest.

Revolution Gaining

"The revolution is gaining more rapidly than any previous one in the history of Mexico. It will succeed between 60 and 90 days Carranza's administration will have passed into history.

"The revolutionists have pledged themselves for what they believe just. Foreigners alike with citizens of Mexico are offered full protection and justice."

TO PURCHASE ARMS

By Associated Press Leased Wire
St. Louis, Mo., May 1.—One of two Mexicans under arrest here today, according to police, said he was Manuel M. Prieto, mayor of Juarez, Mex., from 1914 to 1916, and that he came to St. Louis recently to purchase arms for General Alvarado Obregon and the armies revolting against the Carranza government.

Bolsheviki Forces Take Important Port

By Associated Press Leased Wire
London, May 1.—Russian Bolsheviki forces occupied Baku, an important port on the western coast of the Caspian Sea and the center of a very important petroleum field, on April 28, it was announced officially today.

OPERATED UPON TODAY.

Harry Warner, of the Bend, underwent an operation at the Dixon hospital this morning. He is expected to make a good recovery.

ON RENT STRIKE

By Associated Press Leased Wire
Chicago, May 1.—Thousands of families in Chicago went on a "rent strike" today and refused to vacate their apartments in accordance with May Day moving orders. H. S. Standish, president of the Chicago Tenants Protective League estimated.

Mr. Standish predicted that 10,000 tenants would defy efforts of landlords to evict them.

SEVERE BATTLE BETWEEN REDS AND KOLCHAK'S

Last of Admiral's Army Makes Stand in Baikalia

By Associated Press Leased Wire

Vladivostok, April 29.—Severe fighting is in progress at Chita, Transbaikalia, between the forces of General Vojtekhovsky, the sole remnant of Admiral Kolchak's army in Transbaikalia, and the opposing Bolshevik faction, according to reports from a Russian source. The Japanese are declared to be supporting General Vojtekhovsky.

The Japanese representative here declares that the action of the Japanese troops has been sanctioned by the allies. Japanese reinforcements are constantly arriving in Vladivostok.

The latest reports concerning the army of General Vojtekhovsky contained in a Harbin dispatch dated March 25, said its position called for serious consideration. Tens of thousands of his men and several thousand officers, the dispatch added were anxious to leave the Bolshevik territory. The consent of the Chinese and Japanese to their exodus had to be obtained however, and the attitude of the two countries had not at that time been defined.

G. O. P. Congressional Convention Meets at Sterling Wednesday

The Republican Congressional convention of the thirteenth district has been called for 1:30 p. m. Wednesday, May 5, at the City Hall in Sterling, Ill., according to a call sent out by R. P. Eckert, chairman and H. A. Heer, secretary.

The convention will select a presidential elector from this district, for which Ed. Taggart, of Freeport, has no reported opposition, and will also elect a state central committeeman. A. M. Smith of Stockton and W. B. McHenry, of Rochelle, are candidates for the position, and a lively fight is expected. Lee county's delegates to the convention were elected at the meeting of the county central committee Monday.

ATTENDED THEATRE

Misses Anna and Olga Jensen and Mrs. Malcomb Erbe attended the production of "Tea for Three" at the Academy of Music in Sterling last evening.

Miss K. Lewis, R. N., is on duty at the hospital.

NEWSPAPERS TO COST FIVE OR TEN CENTS WITHIN A FEW YEARS

Frank Munsey, Famous Publisher, Makes That Prediction

By Associated Press Leased Wire

Washington, May 1.—Government restrictions on consumption of newspaper paper were urged before a senate investigation committee today by Frank A. Munsey of New York, publisher of five daily newspapers and three magazines.

Mr. Munsey declared that if the rate of consumption continued for the next 25 years at the rate it had in the past quarter of a century there would be no wood pulp forests left in the world.

"I know that sounds like a broad statement, but it is true," said he. "The witness said that even now the nation must look forward to the time when daily newspapers will be selling for five and even ten cents."

"The only way to handle the situation, I believe," said Mr. Munsey, "is by restrictions imposed by the national government for the good of all. In urging government restrictions, Mr. Munsey said there was no possible remedy left to individual publishers."

"No form of voluntary co-operation between publishers could be made effective," he said. "Every publisher regards question of size of publication, etc., as purely personal," the witness declared. "You can't get co-operation in half, although it ought to be done. I would gladly do it myself."

Cutting the size of newspapers would not materially reduce revenues of publishers, Mr. Munsey said and would protect the forests.

Flames Threatened Hutter Residence

The fire department was summoned to the home of Mr. and Mrs. Albert Hutter, on Broadway street yesterday afternoon about 2 o'clock where an overheated range had started a smoldering fire under the stove, which probably burned some time undetected by Mrs. Hutter. The flames were gaining rapid headway when discovered by Mrs. Hutter, who summoned a neighbor, who assisted in removing the stove from its position and the two extinguished the fire before the department arrived. A hole was burned in the floor and the house slightly damaged from smoke.

Sister of George Ormsby is Sought

Dixon police have been requested to assist in locating a sister of George Ormsby, formerly of this city, whose body is being held at the G. W. Scott undertaking parlors in Chicago. According to word received in a long distance telephone message from the Chicago police this morning, the dead body is thought to have a sister, Sadie Ormsby, who may be married and not known by her maiden name, living here. Any information which will lead to the locating of the sister of the deceased may be communicated to any member of the police department.

Second Bravest of Yank Army Married

By Associated Press Leased Wire
Buffalo, May 1.—Frank J. Gaffey, termed the second bravest soldier in the American army in the war, was married here today to Marie C. George, a nurse. He was awarded a Congressional Medal of Honor, the Croix de Guerre, the Medaille Militaire, the British Distinguished Service Medal and the Montenegrin honor medal. He met Miss George while at a hospital recovering from the loss of an arm and leg.

KINDERGARTNERS, ATTENTION.

Changes have been made in the Kindergarten hours on Monday to allow the Senior class of the North Dixon High school to set Kindergarten hall, North Dixon, to rights after the presentation of their stunt night program. Consequently the kindergarten children of the South Side will meet between the hours of 9 and 11 a. m. and the North Side Kindergarten will be in session from 1 to 3 o'clock in the afternoon.

MINISTERS' MEETING.

A meeting of the Dixon Ministerial association will be held at the Y. M. C. A. at 10:30 Monday.

There are Mays you don't find on the calendar. And, just like the flowers of May, these May Girls are pretty, good to look upon, and nice to have around. But, unlike many May flowers, these May Girls are not born to blush unseen. They waste no sweetness upon the desert air. They are the May Girls of the spotlights, the stage and the screen.

Just so you may know them:

No. 1 is May LeRoy, of "The Night Boat"; No. 2 is May Gerard, of "Happy Days"; No. 3 is May De Lara, in "Pagliacci"; No. 4 is May Irene Williams, noted soprano; No. 5 is May Summer, in "Look Who's Here"; No. 6 is May Allison, Metro movies; No. 7 is May Murray, a Paramount star; No. 8 is May Hackett, Broadway favorite; No. 9 is Edna May, in "Florodora"; No. 10 is May MacMillan, of Capitol Theater Co.; No. 11 is Doris May, of Famous Players-Lasky.

Honest, now, folks, did you ever see more bright Mays on the first of May? It beats any May Day party we ever attended. Add to this brilliant May collection all the pretty Mays you know and then bet your bottom dollar that more pretty girls are named May than—April, for instance.

POPULATION

By Associated Press Leased Wire
Washington, May 1.—Census figures announced today:

Connellsville, Pa., 13,804, increase of 950, or 7.5 per cent.

Keen Interest Shown in U. of Penn. Relay

By Associated Press Leased Wire
Philadelphia, May 1.—Although the heavy rain which marred the last half of the opening day's program of the University of Pennsylvania relay carnival continued throughout the night, the forecast was for fair weather to-day and record-breaking performances were anticipated.

The cream of American college athletes were entered in the presence of the United States today's events and this together with the excitement of the Oxford-Cambridge stars created unprecedented interest in the games. Virtually all the leading colleges and universities in this country were represented in one or more events on the day's program.

Interest centered in the two-mile college relay championship of America, in which the Oxford-Cambridge runners met the fastest half milers in the United States. Among them were the Iowa state quartet, which covered the distance within one-fifth of a second of the world's record last Saturday at Des Moines; Yale, Cornell, Pennsylvania, Illinois, Dartmouth, Pennsylvania State and Massachusetts Tech.

Other big features were the one-mile and four-mile relay championships. A day's program also included college freshmen, preparatory and high school championships, college class relay races and high and preparatory school class relays.

Among the field events were the pole vault, broad jump, shot put, high jump, javelin and discus throw.

Seek Compromise on Soldier Relief Bill

By Associated Press Leased Wire
Washington, May 1.—With plans for passing the bill next Monday abandoned because the party caucus last night developed such opposition to the proposal for raising revenue by a sales tax that its elimination was declared to be certain, Republican leaders today were seeking to affect a new compromise on soldier relief legislation.

After being in session four hours during which all efforts to obtain the United States support of the party for the bill as drawn by the ways and means committee, failed, the caucus adjourned. No date for the next conference was set but Representative Mondell, floor leader, announced it would be held next week.

Quiet Momentarily Reigns in Turkey

By Associated Press Leased Wire
Constantinople, April 29.—Quiet is reigning momentarily in Anatolia, where Turkish Nationalist troops under Mustafa are under arms. An official statement issued by Mustafa Kemal says:

"We are fighting on three fronts, Armenia, Cilicia and along the shores of the Sea of Marmora, but temporarily we must be quiet on the Aidin front."

Greeks are holding the line in Aidin. Relations between the Nationalists and the Italians are very cordial and it is reported the latter are providing Mustafa Kemal with ammunition.

TWO CARLOADS GAS COAL ARE RECEIVED HERE

Danger of Another No-Gas Period Removed for Time

Possibility of another shutdown of the gas service in Dixon within a week or ten days was removed this morning with the arrival in the city of two carloads of Kentucky coal, which, following insistent work on the part of officials of the I. N. U. was finally released from the Peoria railroad yards where it had been tied up by the switchmen's strike for many weeks.

By mixing this coal with the coal grade of domestic fuel which the good pany had secured, it is believed the production of gas here can be kept apace with the consumption; but it is imperative that patrons be as conservative as is possible in the use of gas, otherwise the gas company officials may find it necessary to use the Kentucky coal unmixed, in which case the two carloads received today will not last much over a week and a situation analogous to that which confronted the company Thursday will again be encountered.

Large Shipment of Freight by Barges

By Associated Press Leased Wire
St. Louis, Mo., May 1.—What was said to be the largest river shipment of freight from St. Louis since the revival of barge traffic on the Mississippi in 1918, left today, six barges, carrying approximately 5,000 tons of merchandise clearing for Memphis and New Orleans.

It was said that 250 cars would be required to move the freight had it been sent by rail. Five of the barges are going to New Orleans with freight for trans-shipment to Europe and South America.

The yardmen's strike, according to shipping men, is responsible for the activity characterizing water traffic.

Three More Hunger Strikers Released

By Associated Press Leased Wire
London, April 30.—Sinn Fein sympathizers and opponents engaged in a street fight before Wormwood Schrubbs prison tonight, and mounted police had to charge on the crowd before it would disperse. Stones and clods of earth were thrown and several persons were slightly injured.

Announcement was made tonight that three more hunger strikers had been released, making a total of 13 since they began refusing food 10 days ago.

One feature of tonight's demonstration was the appearance of "Tin" helmets, worn by a large number of Irishmen engaged in keeping order. A choir of ladies sang Irish songs and Mrs. Despard, sister of Field Marshal French, lord Lieutenant of Ireland, addressed a crowd.

Kiwanis Club Will Meet at Lowell Park

The Kiwanis Club of Dixon will hold next week's regular meeting at Lowell Park lodge at 6 p. m. on Tuesday, May 4. All Kiwanians are requested to fill up their lists with fellow members. Those who have no way of getting to the park are requested to get Lex Hartzell, who will arrange for their transportation. It is announced by Secretary Heinz that "Big Ben" will not be on the job and a good meeting is in prospect.

Orders Recount of New Jersey Ballots

By Associated Press Leased Wire
Newark, N. J., May 1.—Chief Justice William C. Cunniff of the supreme court today signed an order for a recount of the vote cast in last Tuesday's presidential preferential primaries for Senator Johnson and Major General Wood.

MILLER PLANS BIG GARAGE; BEGIN WORK EARLY COMING YEAR

Property at First and Ottawa Purchased for Building

Joe E. Miller has purchased from Mrs. Mary Metcalf, the two lots, 60 by 150 on the corner of Ottawa avenue and East First street and he expects to use the new acquired property for the erection of a large automobile garage and storage rooms.

Mr. Miller does not contemplate any building activity this season, owing to the inability to secure materials. However, he has plans ready for the construction of a three story fire proof brick building on the site, with entrances on both Ottawa avenue and First street. Considerable excavation will be necessary to bring the first floor down to the street level, this is to be used as the general repair department and garage. The second floor will accommodate the large stock of Buick parts and the third floor, show rooms and a considerable space for storage of cars. He expects to break ground for the new building early next spring.

Atlantic Fleet Back From Winter's Work

By Associated Press Leased Wire
New York, May 1.—The great Atlantic fleet arrived in home waters early today to give 25,000 American bluejackets relaxation from their winter period of target practice and drill off Guantanamo, Cuba, during their two weeks stay here they will be entertained by various organizations and given an opportunity to renew acquaintances with relatives and sweethearts.

On board the flagship Pennsylvania with Admiral Henry B. Wilson, commander of the fleet were Secretary of the Navy Daniels and Admiral Robert E. Cowitz chief of navy operations.

The fleet was met down the bay by a squadron of navy seaplanes and a short time later was greeted by a fleet of destroyers and tugs from the navy yards which went out to pilot the men of war through the Narrows.

Rear Admiral John H. Glennon, commanding the third navy district and Rear Admiral J. D. MacDonald, commander of the New York navy yard, extended formal welcome to Secretary Daniels and the high officers on board.

General Conference M. E. Church Opens

By Associated Press Leased Wire
Des Moines, Ia., May 1.—The quadrennial general conference of the Methodist Episcopal church opened here today and will continue in session throughout May.

There were 850 accredited delegates to the conference forty-one being women, more women than were delegates to any previous general conference. Forty-two of the foreign delegates were from Asia, 24 from Europe; four from South America and two from Mexico. Fourteen different nationalities were among them.

Much interest attaches to action on the unification of the conference with the Methodist Episcopal church, south. The joint commission of the two conferences will report on a plan for effecting the union after four years of study.

Kentucky Democrats in Co. Conventions

By Associated Press Leased Wire
Louisville, Ky., May 1.—Kentucky Democrats today held county mass conventions to elect delegates to the Democratic state convention to be held here May 4. Approximately 2,000 state convention delegates were to be named.

Managers of the campaign of Governor James M. Cox for Democratic presidential nomination said they had "unmistakable assurances" that a majority of the delegates elected by the county conventions would be instructed for the Ohio governor.

Widener of Philadelphia, is with party.

ARMISTICE IN TAXI CAB WAR IS AGREED UPON

35-Cent Fare Continues—One Line Has Quit Business

An armistice has been agreed upon in the taxi war, which was a subject of no small amount of comment early in the week, when the charges were advanced. The owner of the Watts line of cars after consulting with the city officials and his attorney, has agreed to abide by the present ordinance for a period of weeks, during which time an accurate account of expenses and receipts will be kept. At the conclusion of this period, it will be determined whether or not the council will be solicited to draft a new ordinance providing for a 50-cent fare or whether the provisions of the present ordinance shall continue to govern.

The Yellow Taxi line has had its doors closed for several days and none of the cars of this company are being used in this service at present. It has not been announced by the owners whether or not the company will continue in business or dispose of its equipment.

Continues Jury to Investigate Alleged Profiteering in Food

By Associated Press Leased Wire
Chicago, May 1.—The April federal grand jury was continued in existence today under orders of Judge K. M. Landis to conduct a thorough investigation of profiteering. Indictments were returned yesterday against four produce and sugar dealers for alleged profiteering and the jury will deal immediately with charges against other produce dealers.

An inquiry into prices charged for coats and shoes will follow before a special grand jury, United States district Attorney Cline said.

Nebraska Man 126 Years Old is Dead

By Associated Press Leased Wire
Grand Island, Neb., May 1.—Thomas Morris, 126 years old, died this morning at the home of Charles Mitten, ranchman, eight miles northeast of Ansel, Neb. He was born in Berren, North Wales, Jan. 15, 1794. The aged man never married and followed the profession of a cobbler for 100 years. He came to this country in 1871, locating at Streator, Ill., and moved to Custer county, Nebraska in 1886.

Record Earth Shock South of St. Louis

Readiness of Legal Authorities Prevents Uprisings

By Associated Press Leased Wire
Paris, May 1.—(By Associated Press) Two persons were killed and about 50 others wounded, most of them slightly, in a series of small riots this afternoon in the eastern part of the city.

BULLETIN

By Associated Press Leased Wire
Paris, May 1.—A clash between Republican Guards, police and 2,000 May Day manifest occurred at 3 o'clock this afternoon on the boulevards of the St. Martin quarter. Two shots were fired during the melee and several persons are reported wounded.

The disturbance was the first disorder of the day. It was brought on by the presence of students from the schools who acted as drivers on the auto buses, replacing the striking drivers.

BULLETIN

By Associated Press Leased Wire
Chicago, May 1.—Police were called to a school house in the thickly populated West Side Ghetto early this morning when it was discovered that a Red flag had been raised on the school flag pole during the night.

Lieut. John Dixon, a former police soldier, climbed the eighty foot pole and cut down the banner which bore the legend, inscribed in yellow chalk, "Hurrah for the Soviet, Death for capitalists."

Russian workers began gathering early in the day at Humbolt Park for an open air meeting. There was no disorder.

Twenty-five members of the Third Reserve Militia were mobilized this morning by Colonel Anson L. Bolte and detailed to guard rifles, ammunition and other government property stored in the Armory, in the heart of the South Side "black belt."

One hundred and fifty extra police were sent into the district armed with riot guns.

Army intelligence officers warned police several days ago that race riots might break out today when negro families began moving into homes purchased in districts which heretofore have been occupied by whites.

By Associated Press Leased Wire
Washington, May 1.—Forewarned by the Department of Justice, those responsible for the maintenance of order in every city and industrial center were prepared today to act at the first sign of any disorder instigated by radical elements. While reports continued to arrive that Communist agitators were still doing all in their power to arouse the workers to a "May Day show of power," early today no report of violence came from any source. Assistant Attorney General Garvin expressed the opinion that the conditions taken had materially dampened the order of radical leaders. Special precautions had been made to safeguard the members of congress, the three federal judges and an attorney known, according to the department of justice to have been selected by the agitators for assassination.

Mr. Garvin said an amazing amount of money had been spent by the Communist Labor party in the distribution of propaganda and in preparations for demonstrations.

Eastern Cities Under Heavy Guards

By Associated Press Leased Wire
New York, May 1.—May Day found many cities in the east under strong police and military guard in anticipation of possible acts of violence by radicals.

In New York City, the entire police force of 11,000 was on duty; soldiers at Governor's Island were armed with 100 rounds of ammunition and held in readiness for instant duty. Arrangements were made to mobilize the New York state guard and a hundred posts of the American Legion agreed to report at police stations should an emergency arise.

All public buildings here were closely protected and guards were stationed at railway terminals, bridges and the homes of prominent men. Department of justice agents swarmed through certain sections of the city where radical agitators are known to have haunts. One hundred meetings of radicals were to be held during the day.

FOR NEW MEMBERS—

The reception given by the Woman's Foreign Missionary society of the Methodist church for the new members, gained in the past week's campaign to increase the membership, was a most delightful event. The spacious residence of Mrs. H. L. Fordham was opened Thursday afternoon for the occasion and about seventy ladies were in attendance. Just the exact number of new members honored is not known at present, as the reports from the different members in the campaign will not be turned in until the next regular meeting. Both the Woman's and Young Woman's Auxiliaries were interested in the campaign. The afternoon was passed most pleasantly. Mrs. L. E. Edwards gave several charming vocal selections and Mrs. Charles Ploto and Mrs. Henry Leydig delighted all with their readings. A letter of greeting to the new members from the district president, Mrs. Van Sant, of Sterling, who was unable to be present, was read. Especially good refreshments were served by the committee in charge.

DIXON MEN WERE GUESTS—

Freeport Journal-Standard: An interesting resume of his recent trip through the Orient was given by W. B. Huenkemeier at the weekly meeting of the Kiwanis club this noon. Mr. Huenkemeier told in a graphic manner of the customs and habits of the Japanese together with many interesting facts regarding that nation and its operations. The description was greatly enjoyed by the Kiwanians. State Attorney Harry Edwards, of Dixon, who is now a candidate for the position of circuit judge, was also present and gave a brief talk. Another guest of honor was Judge Crabtree, of Dixon.

Rev. Charles A. Briggs, Jr., a member of the Rotary club, favored the Kiwanians with a number of fine vocal selections.

HOSTESS TO C. C. CIRCLE—

Mrs. J. H. Davidson was hostess to about twenty members of the C. C. Circle and several guests at her home on Thursday afternoon. Each one was busy with their own fancy-work. At the close of the business session, a social hour was enjoyed and a most tempting lunch of sandwiches, pickles, cake, and coffee was served. The next meeting will be held with Mrs. Bert Smice on Thursday afternoon, May 13th.

PALMYRA S. S. CONVENTION—

A Palmyra township will hold its annual Sabbath School conference at the Prairieville church Sunday afternoon at 2 o'clock. The program numbers will be: "The Value of Organized Classes," Rev. Q. R. Wright, of Sterling; "The Value of the Sabbath School," Jonas Baer; "Arousing Neighborhood Interest in the Sabbath School," H. A. Studebaker. Everyone is cordially invited to attend this conference.

BIRTHDAY CELEBRATED—

The birthday of Mrs. Irvin Petty was made the occasion of a very pleasant evening Wednesday by a company of her friends who arranged to spend the evening with her without previously warning her. The guests numbered about twenty. Progressive Five Hundred was the diversion of the evening, the guests later serving excellent refreshments. Mrs. Petty was presented with a handsome card table and a number of other beautiful gifts.

PRACTICAL CLUB MEETING—

The Practical club members spent a very delightful afternoon with Mrs. Harry L. Fordham at her home Tuesday. Mrs. Lester Street gave an interesting paper on "Van Dyke" and current events were discussed by Mrs. Buchner. Piano solos were rendered by Frank Fordham and Harry Fordham, Jr. The former gave, "Chapel in the Mountains," and "Barsovia" and the latter "Barcarolle" and "Song of the Bathers." Mr. and Mrs. Frank Fordham followed these selections with a piano duet. All numbers were greatly enjoyed. Refreshments were served by the hostess during the social hour.

JOINT MEMORIAL SERVICE—

The Comrades of Dixon Post, G. A. R., and the members of the Woman's Relief Corps will unite in a joint memorial service in honor of the memory of members who have passed beyond during the year. Rev. E. C. Lumsden will make the address and there will be special music. The service will be held in G. A. R. hall at three o'clock Sunday afternoon. All officers and members of the corps are especially requested to be present. The public is invited to be present and a special invitation is given the relatives and friends of those members in whose memory the service is held.

EASTERN STAR MASQUERADE—

The Eastern Star Masquerade of Friday for the members and their families was a most delightful merry-making and was participated in by a large number. A motley array of folk in all sorts of costumes, attractive and ridiculous, filled the dance floor at Masonic hall during the evening and later presented themselves for the refreshments of sandwiches, coffee, and small cakes. The affair was very informal.

FOR MRS. SAWYER—

Mrs. Harry L. Beard entertained a few friends on Friday afternoon in honor of Mrs. Frank Sawyer, who soon moves to another part of the city. The afternoon was a very pleasant informal one, with a luncheon, daintily served, forming part of the entertainment. Unique favors were presented the guests.

CO. F MAY PARTY—

One of the prettiest dancing parties this spring was the May Party given Friday evening at the Armory by the members of Company F, Illinois Reserve Militia. Over one hundred couples participated in the affair, with many from the Sterling company and representatives from several companies of the Sixth regiment from nearby towns in attendance. The appearance of the hall would gladden the eyes of any patriot as the national colors were everywhere. Decorations had been brought from Chicago for the affair and they were indeed most effective. A canopy of red, white and blue covered the center of the ceiling and from this a gleaming silver letter F hung. The large are lights were shaded by long streamers, and the flags of the allies, France, England, Italy and Belgium, alternated with those of the United States about the room. Back of the orchestra hung a mammoth flag, 24x30 ft. and flags were used profusely about the orchestra stand. The service flag of the company and red, white and blue shields and fans completed the decorations. Souvenirs, small fans in the national colors, were given the ladies as they entered the ballroom. May Day was ushered in by the showing of confetti by the members of the company at the stroke of twelve. Dancing was continued until 2 o'clock in the morning.

Jackson of White Sox Leads Hitters In American League

Chicago, May 1.—Joe Jackson, the Chicago outfielder, is leading the batters of the American League with an average of .483. He made this mark in eight games, in which he had been at bat 23 times and cracked out 14 hits, according to averages released today and which include Wednesday's games. Johnson, Cleveland, is second in the list with .469 acquired in nine games, and Hendryx, Boston, with .432 is third.

Ty Cobb, the Detroit star, last year's batting champion has not found his batting eye, although he had participated in ten games. He has been at bat 37 times, but has made only 6 hits for an average of .162. "Babe" Ruth, New York, the slugger, who last season established a world's record of 29 home runs is slow in getting his eye sharpened for hitting this season. Ruth played in a half a dozen games, before an injury received during practice forced him to retire for a while, and in the five hits he collected only one was for an extra base. It was double. Other leading batters for five or more games: Williams, St. Louis, .428; Walters, Boston, .414; C. Walker, Philadelphia, .410; Weaver, Chicago, .406; E. Collins, Chicago, .400; Speaker, Cleveland, .378; Scott, Boston, .366; Sisler, St. Louis, .344.

C. Walker, has bagged two home runs and Roth, Washington has stolen six bases.

NATIONAL LEAGUE.

Nicholson, Pittsburgh, is topping the batters of the National League, with an average of .600 made in five games. He has been playing the role of pinch hitter and in five times at bat has made good three times. Kidford Brooklyn, in a like number of games is hitting .500, having made six hits in 12 times at bat. Hornsby, St. Louis, with .468 made in 11 games is third. Roush, Cincinnati, who lead the regulars in batting last season, is batting only .216 for 10 games. Other leaders are: Rath, Cincinnati, .463; Lebourveau, Philadelphia, .444; Z. Wheat, Brooklyn, .417; Daubert, Cincinnati, .378; Pick, Boston, .378; Bancroft, Philadelphia, .361; Groh, Cincinnati, .351.

Max Carey, Pittsburgh, is getting away with a flying start among the base stealers having pilfered five bases.

FOR "STAPLE" DRESSES

By Associated Press Leased Wire
Pittsburgh, Pa., May 1.—Twelve thousand members of the Congress of Women's Clubs of the Pittsburgh district have pledged themselves to wear only "staple" clothing until prices of more modish garments drop, and to place a two week's ban on potatoes, in campaign against the high cost of living.

WANT COPIES OF APRIL 13th.

Sister Mary's Kitchen

This spring if a big chair looks shabby and needs reupholstering and most of the housekeeping allowances seems to be going for food just make up your mind to make a slip-cover yourself.

The material for the cover isn't to be had for a song but if you can save the cost of the labor it will be quite an item.

Make a pattern of old cotton cloth that fits perfectly before cutting into the cretonne or whatever you may choose. In doing this you run no risk of wasting and spoiling good material but the fact is that it is not a difficult task to make a slip-cover for a straight-line chair. Any woman with the desire in her being can do it.

Menu For Tomorrow

Breakfast—Compote of fruit, waffles, syrup, coffee.

Luncheon—Toasted cheese sandwich, midget pickles, pineapple bliss, tea.

Dinner—Breaded veal cutlets, new potatoes, creamed peas, orange and date salad, steamed graham pudding, coffee.

My Own Recipes
As the meat course is rather light balance is given to the dinner by serving a heavier dessert. In the graham pudding several elements are supplied. If a hard sauce is served the sugar and butter furnish energy and fuel and the pudding itself gives bulk and ballast as well as the food values.

Toasted Cheese Sandwich
1 cup grated or chopped cheese.
3 tablespoons milk.
1 egg
Dash of mustard.

Salt
1 tablespoon butter.
Paprika
8 triangles of toast.

Melt butter in top of double boiler. Add cheese and cook over hot water till melted, stirring to make smooth. Beat egg with milk and slowly add to cheese, stirring with a wire whisk. Season and put on toast. Put cheese between slices of toast and on top. Slip in a hot oven for four or five minutes before serving to be sure it's perfectly hot. With a chafing dish and electric toaster this may be made on the table for Sunday night supper.

Pineapple Bliss
1-2 pound of marshmallows
2 cups grated pineapple and juice.
1-2 cup whipping cream
1 tablespoon powdered sugar
Tiny pinch of salt.
Cut marshmallows in quarters. Add to fruit and juice and let stand over night.

night. An hour before ready to serve add cream whipped and sweetened with the pinch of salt added. Chill and serve in glasses.

Now is the open season for the pessimist who is always ready to pronounce failures fruit crops.

You Can Have a Checking Account

The reason more people do not have a checking account is because they do not understand about it.

When we say "you can have a 'checking account'" with all the conveniences, benefits and safeties attached thereto, don't you think it worth while to FIND OUT ABOUT IT if you do not understand?

A checking account means that

- You always have correct change.
- You always have a receipt.
- You always know to a cent where your money has been spent.

AUTO JOYS
Self-preservation is the most power-
ful instinct, one is told. But it is
trailed closely by the impulse to ac-
quire an automobile.
An American automobile manufac-
turer recently received a request for
prices, from the interior of China.
He was asked to name his price for
a car finely finished and luxuriously
upholstered, complete except motor.
No motor was desired.
It developed that the oriental who
wished this car lived where gasoline
was costly, but coolie labor was cheap.
Besides, he had no wish to go fast.
He proposed to sit in his car and steer
it leisurely, while coolies pushed it
from behind.
Report of a yet more peculiar taste
in automobiles is brought back by a
government scientist lately returned
from Asia Minor.
A native potentate had satisfied his
longing to possess a car. He would not
trust himself in it. No other was
permitted to run his toy. But he got
a deal of pleasure out of it, aside from
the simple joy of ownership.
He had rigged the electric equip-
ment for a purpose which best suited
his fancy. He would command an un-
wary subject to place a finger on a
certain spot, and then would give the
subject a shock that knocked him end
for end.
Verily, great satisfaction can be
gained from a motor car without
speeding it!

SCHOOL GRADES

What happens to the child who
ranks highest in his school examina-
tions? Or, vice versa, to the one who
ranks lowest?
Verily, the last shall be first, one
learns from a report just issued by
school experts of the federal bureau
of education.
This report cites the experience of
a Japanese university which once
named a committee to determine what
sort of examination should be given
the youth of that land in order to se-
lect young men showing the greatest
promise for the future.
The committee, after an exhaustive
study of the biographies of eminent
men, reported:
"The one most prevalent character-
istic of men of mark in their school
days is that they could not pass their
examinations."
As a remedy for the unreliability of
examinations in determining actual
ability, government experts recom-
mend greater stressing of general
work, aptitude and progress, and re-
cognition of the fact that, instead of
measuring up to a theoretical stand-
ard of excellence, a school is simply
a normal group of individuals in which
a few show marked proficiency, many
have average attainments and a few
are poor.
The ability of a school child can be
judged more accurately by an every-
day comparison with the standard of
his class than by formal examinations.

33 PER CENT ROBBER

The American farmer battles un-
ceasingly with the crow, that black
imp of Satan that soars in the free-
zing blue and mocks him impudently
from the wood bordering on the corn
field. The farmer is the crow's life-
long enemy. Because he believes—
and investigation shows he's 33 per
cent correct—that the crow is a corn-
field robber.
And he is, in a way and to an ex-
tent. The United States biological
survey has developed some interesting
facts about the crow, however, that
shows that for the 33 per cent of corn
he eats he destroys a host of bugs and
insects that are crop destroyers of the

worst kind. And most of the corn Mr.
Crow destroys, excepting in the early
spring planting season, is that from
November to March, after the harvest
season and which is merely the waste
grain.
The biological survey studied the
stomachs of thousands of crows to
discover their diet. In 2118 stomachs
examined, 625 different kinds of food
were found. It was established that
the crow is a remarkable destroyer of
May beetles, grasshoppers, tussock
moths, gypsy and brown-tail moths,
cotton-worms, army-worms, canker
worms and chinch bugs—all of them
crop enemies. The crow ought not to
be exterminated. He ought not to be
exterminated. The chances are he does much
more good than harm.
Perhaps at times Mr. Crow needs
to be chastened a bit. But it is
hardly conceivable that he should go
the way of the buffalo and the passen-
ger pigeon and the great auk. There
is a place in the scheme of Nature
for the crow, else he wouldn't be here.

DAD KNOWS

How often have you heard a young
fellow remark that "Dad always
seems to know what's best in the busi-
ness world for me. I go on his tips
oftentimes—even against my own
hunches—and they usually pan out
pretty good."
What's the answer?
Maybe it's simply this:
A dad is likely to know his own son
from the point of what the boy will
best fit in—he should know his son's
ways and habits and general make-up.
Consequently a dad is likely to advise
from that standpoint.
The son has little youthful desires
—maybe he likes a certain city; maybe
he knows the bunch in a certain busi-
ness establishment; maybe he wants
to be near HER.
And he's likely—in youth days—
to let that influence him.
Dad would have you where he
thinks you OUGHT to be. You may
pick the place where you think you'd
LIKE to be.

THE ROACH

By Edmund Vance Cooke
(Biologists tell us that the common
cockroach has existed since the mi-
cro-Carboniferous period of the late
Paleozoic age at least.)
Burns drew a moral from a mouse
And sang a lyric to a louse,
While Riley, pausing in the road,
Achieved a greeting to a toad.
And Tilton hummed a lullaby
Round a pesky pest, the fly.
Now comes my lit, and I approach
To chant the glory of the roach.
Not that I praise the beast or prize
him;
I loath him, crush him and despise
him.
Yet simple justice makes me witness
The evidences of his fitness.
A fitness proved, to all intent,
By longest claims of long descent.
Some men still set their names
ashine
By boasting of a Norman line,
And some may count the centuries'
lance
To patriarchs and Pharaohs,
But genealogy and race
And long, long lines of time and
place
Are subjects none would care to
broach
In presence of the pristine roach.
Of all earth's creatures he is peer,
A very insect Vere de Vere!
And still he holds among the swells!
You meet him in the best hotels,
He travels on the Pullman diner
Or on the lordly ocean liner;
No place too sacred or too sure,
But he may conquer and secure.
Now judge the future by the past,
And whose the destiny to last?
The serpent and the tiger may
Pursue the flesh and feed on prey;
Man may assume an angel-shape
Or relate him to the ape.
Yet they shall join, as time goes on,
The dodo and the mastodon.
But he, the creature of my song,
If his far future be as long
As his known past, he shall endure
With crest as unabashed and sure.
Till none dispute and none encroach
Upon the precincts of the roach.
So runs the world! In generality,
Men may not like your personality.
But if you have the goods and grit
To buck the game and stay with it,
Aeon on age and age on aeon,
Whether patriarch or plebeian,
Then, whatsoever the credit due you,
The world has got to hand it to you.
So, now, the World and I approach
And sing the world-enduring Roach!

WEeping NEVER MAKES BOB
TENDER, AS I EXPECT IT TO DO.
"I'll keep the yacht cruising off
Vera Cruz." Thus Daddy acquiesced
with his son's arrangements. "We'll
wait about her until you bring Chrys-
tis taken all—"
"No, sir! I beg of you not to wait
more than three days," broke in Jer-
dan Spence. "If we are not with you
by that time, Mr. Lorimer, you must
conclude that Bob and I have failed."
"That's so," agreed Bob. "Spence
and I can manage to get across the
border safely, somehow. Don't worry
about us, Dad."
My husband's voice was confident,
but his words chilled me. I hadn't
up to that minute, had any idea that
he would not arrive safely at the sea-
board with Chrys, in a reasonable
length of time. I pulled Bob close to
the side of the car, and began to cry!
"Jane, my dear! Don't work your
self into a spasm of hysteria like this.
Before all these people!" he warned
me.
A woman's tears always irritate
Bob and he always shows his annoy-
ance. Doubtless lots of husbands hate
tears in the same way but they do not
tender of me as I expect it to do. I
"came to," gave my husband a frantic
hug, and sat up as stiffly as Daddy
Lorimer was doing.
"Look after Hamilton Certels. He
is wounded, you know." I spoke in
my most controlled tone. "Don't for-
get the little stunt I outlined. And
remember, Bob, that only you and I
and Don Manuel know what has be-
come of Certels."
"What has?" asked Daddy. "I am
forsaking his roof in a most informal
manner, but only for the reason that
he is not to be found."
Bob's angular jaw set hard in a way
I knew well. He replied briefly:
"Never mind now where Certels is.
Jane will tell you as you ride along."
Then he shook hands with the men,
deposited a formal kiss upon my brow
—the only kind he ever can achieve in
public—slammed the door of the auto
and gave an order to the driver.

ADVENTURES
OF THE TWINS
by Olive Roberts Barton

"BILL BLACKBIRD OWNS UP."
"Well, I'll be going now, I guess!"
said Bill Blackbird, putting his sleeves
and waistcoat to see if the color was
quite dry, for Nick and Nancy had
been painting him up to go to the
Land-Where-Spring-was-Coming. Bill
was passing off for Oliver Oriole, you
remember.
"How about your voice, Mr. Oriole?"
asked the Fairy Mushroom. "Since
you've grown so much bigger it
doesn't seem so musical as it did last
time."
"Yes, I should," advised the Mush-
room. "You'll have so much time to
get cured." "What do you mean?" demanded
Bill sharply at that.
"Why, it's too soon for you to go,
because the orioles don't leave for a
whole month yet. Nick painted you
up out of turn, because he didn't
know the wind had blown over the
pages of the Bird Book, and that Bill
Blackbird should have come next!"
Bill groaned. What a wretched
cure!
"Why does a cat have whiskers?"
Mr. P. F. Seewide has investigated
the subject very thoroughly, and he
has formed some startling conclusions,
which he reports in the American
Journal of Psychology.
A cat wears whiskers so he may
wiggle them while watching a prey,
thus resting his eyes.
That's why a cat has whiskers.
If you shave the cat's whiskers off
the cat would never touch another
mouse.
Wiggling whiskers keep the vision
from becoming blurred.

Sanitary Milk
The requirements necessary for the
practical production of a clean, sani-
tary milk supply are much simpler
than is generally supposed. In brief,
they consist of the following: a healthy
cow, dry handed milking, an inter-
ested milker, a hooded milking
pail, boiled or otherwise sterilized
containers, efficient refrigeration, and
proper pasteurization. These seven
things are absolutely essential, and
the omission of any one, under ordi-
nary conditions, is absolutely ruinous
to the production of a high-grade pro-
duct.
Buy only the best milk obtainable.
It is cheapest in the long run.
Buy only bottled milk. Dipped milk
is often dirty and may spread disease.

Greedy, you were, and fickle,
The heart of you black as ink.
You lapped up the soda water—
Ahl! corkscrew curls of my dreams!
And left me, you devil's daughter,
For hop-scotch with Pettie Raems!
It is the "ouija ouija" that is
threatening all other prophets in the
country. Gotten to the point where
the ouija have discarded the old-
fashioned "w" and use out overtime.
One ardent ouijaist writes:
"Leonard Ouloud ouiloud succeed

Oul! Oul!

surely must believe that it makes for
a happy ouilouding if you sprinkle rice

The ouija fan tells us that she asks
ouija if it's going to rain, and never
yet has been caught without her um-
brella.
On the other hand, folks used to
believe that the only certain method
of persuading it to rain was to kill a
red ant.
And Squire Abner Harpington be-
lieves if a red ant crawls into your
pocket it brings money.
Any old-time will tell you that
drinking marigolds will cause drinking

Some years ago it was considered
quite a waste of time to consult a
physician as to the probable time of
death. As per:
"In case of sickness a dog is sup-
posed to foretell the outcome. If he
howls the patient is sure to die. Dogs
scent death even before it seizes a
person."
Why does a cat have whiskers?
Mr. P. F. Seewide has investigated
the subject very thoroughly, and he
has formed some startling conclusions,
which he reports in the American
Journal of Psychology.
A cat wears whiskers so he may
wiggle them while watching a prey,
thus resting his eyes.
That's why a cat has whiskers.
If you shave the cat's whiskers off
the cat would never touch another
mouse.
Wiggling whiskers keep the vision
from becoming blurred.

Sanitary Milk
The requirements necessary for the
practical production of a clean, sani-
tary milk supply are much simpler
than is generally supposed. In brief,
they consist of the following: a healthy
cow, dry handed milking, an inter-
ested milker, a hooded milking
pail, boiled or otherwise sterilized
containers, efficient refrigeration, and
proper pasteurization. These seven
things are absolutely essential, and
the omission of any one, under ordi-
nary conditions, is absolutely ruinous
to the production of a high-grade pro-
duct.
Buy only the best milk obtainable.
It is cheapest in the long run.
Buy only bottled milk. Dipped milk
is often dirty and may spread disease.
Take the milk into the house as
soon as it is delivered, and place it

AMERICANIZATION TO BE THEME OF DRIVE IN ILLINOIS MONDAY

American Legion Back of Great Movement in This State

Chicago, May 1.—"Illinois is ready for a great revival of Americanism," reports William G. Settle, in charge of the American Legion membership drive in all counties of the state outside of Cook and Lake. "The patriotic civic organizations in every town and city are anxious to co-operate fully in the great Americanization program the Legion will launch May 2. Department Commander Milton J. Foreman, with a party of Legion executives, will take the foremost part in this drive for membership in the Legion. He will speak throughout the state on the purposes, ideals and accomplishments of the Legion, explain the adjusted compensation bill the Legion has proposed to Congress and point out the services the Legion is doing and is planning to do for the war veterans."

Mr. Settle has just returned to the commander's office here from a trip downstate, a trip of arrangements for the commander's speaking tour. In every town he has visited—Champaign, Danville, Paris, Mattoon, Effingham, Centralia, Carbondale, Cairo, Belleville, East St. Louis, Quincy, Springfield, Decatur, Bloomington, Peoria, Galesburg, Rock Island, Rockford, DeKalb, Dixon, LaSalle, Ottawa and Aurora he has found interest at white heat for the membership drive. Everywhere, every one predicts that the campaign will be highly successful, that the goal of 100,000 new members—set by Commander Foreman will be easily reached.

Commander Foreman will take the stump May 9, at the close of the opening week of the drive in Chicago. All of the 615 posts of the Legion in Illinois will take an active part in making the campaign a success. Each one has appointed a committee to act in co-operation with local civic organizations—chambers of commerce, Rotary clubs, business men's organizations, women's clubs, the K of C, Masons, Elks, Y. M. C. A., Red Cross, etc. Bands have been secured and parades arranged for the day of the commander's arrival. Meetings have been set for the ex-service men in every town of the Legion party's itinerary. There will be vaudeville programs to supplement the commander's Americanization address.

To assure the success of the Legion drive, Governor Lowden has been asked to recognize the Americanization period officially and give it support. National Commander Franklin D'Olier will start the membership ball to rolling when he speaks before representatives of the 171 posts in Lake and Cook counties May 3 at the Hotel La Salle here. At this banquet State Commander Foreman will be toastmaster.

Churches throughout the state will observe American Legion Sunday May 2, with appropriate sermons, emphasizing the ideal of service so dominant in the Legion code. Thousands of posters and slides for motion picture curtains, bearing the legend, "Your Country and Your Comrades Need You More Than Ever. Join the American Legion," are being distributed throughout the state. The actual work of signing recruits will be executed by individual posts who will personally solicit membership from house-to-house among the ex-service men and women of all communities.

Size and Arrangement of Garden

BY W. F. FECHNER

Champion War Garden Director of America

The accompanying diagram is a suggestion for a 50X50 foot city back yard garden and is a good size for an ordinary family of four persons. The size may be reduced or extended, according to available space and individual choice. The amount of each kind of vegetable to be planted also must be to some degree be left to individual choice and some varieties may indeed be left off entirely and others substituted.

On this diagram we show only the vegetables to be planted at the first planting, those that are to occupy the same ground later, as a succession crop, will be mentioned in due season.

The best and most uniform results for the amateur we have found level planting and cultivation the best.

Bedding is advisable where much ground is available so beds can be made wide enough not to be washed down by a heavy rain.

We also recommend everything to be planted in rows to allow easy cultivation and weeding.

Distances between rows may vary according to richness of soil. Irish potato rows should be about 30 inches apart. Onion sets may be put in a double row, six inches between the double rows and about 24 inches from nearest row on each side. English peas should be sown in double or even triple rows, six inches apart and a walk 20 to 24 inches between next row. All the leaf and root crops as mustard, spinach, radishes, lettuce, should be planted in double or triple rows. Early corn should be planted in single rows 24 inches apart medium and late corn 30 inches. Cabbage, collards, egg-plants, peppers, in rows like early corn. White bush beans need double rows for best results.

CONGREGATIONAL CHURCH

Rev. G. H. Putnam, Pastor.
Sunday School, A. L. Wilson, Supt.
Morning worship, 11:00. Topic, "Where is Heaven?"
Evening service, 7:30. Topic, "The Peculiar Source of Paul's Greatness." All are cordially invited to attend these services.

Dixon K. C. to Help Give Mendota Work

Dixon council of the Knights of Columbus will exemplify the first and second degrees upon a class of candidates at Mendota tomorrow and several members of the local council will go to that city in the morning to spend the day and participate in the initiation. The third degree will be exemplified by the state deputy. For the accommodation of visiting members residing north of Mendota, it has been arranged to have the initiatory work completed so that those so desiring, may return home on the evening Illinois Central train.

In the evening a banquet will be tendered to the visitors and new members, to which all have been invited. A program will follow the banquet, at which Grand Knight Martin J. Gannon of this city will be one of the principal speakers.

Sales Stock Barns Given Pretty Finish

The stock barns at the Rock River Valley Breeders Sales pavilion in Deamtown, now present a very neat and attractive appearance, following the application of public dashing to the exterior of the building. It was the intention to have this work completed last fall but adverse weather conditions prevented. With a few finishing touches to be applied the pavilion and stock barn will very soon be completed.

Suprunowski Death Was "Unavoidable" Coroner's Jury Says

The remains of George Suprunowski—Northwestern brakeman—who was instantly killed yesterday morning at 2 o'clock in the south yards at Nelson, were sent to his home in Pekin today. A brother of the deceased, also a freight brakeman, and other trainmen accompanied the body. The brother was coming into the yards at Nelson at the end of his run, when the accident happened and was on the scene shortly after the terribly mangled body had been removed from beneath the tender of the heavy locomotive.

The deceased is survived by his father, four brothers and three sisters. At the inquest which terminated late yesterday afternoon, a verdict finding death to have been due to an unavoidable accident, was returned. Several trainmen, who were working in the yards at the time testified at the inquisition.

TALK ABOUT FIGURES!

The amount of air necessary to inflate one tire company's monthly production of 800,000 tubes would keep one man alive for 12 years and nine months, Goodyear tire experts figure. Further, they figure that the two million cubic feet of air necessary to inflate 800,000 tubes, at a pressure of 45 pounds, would keep 4711 men alive for one day, with enough surplus to keep the 4712th man alive for 18 hours, 21 minutes and 12 seconds.

The estimates were based on the statement of British average man consumes 425 cubic feet of air every

ROCHELLE

Rochelle, April 29. Lee Jeanguie, aged 25, a farm hand employed on the Countryman & Son stock farm in Lynxville township, committed suicide by hanging himself early Wednesday morning. Jeanguie arose early and went to the barn, where he committed the rash act, and was not missed until he failed to come in the house for his breakfast. Search was made and his lifeless form found hanging from a rafter.

The young man has been employed by Floyd M. Countryman since March and while considered quiet and industrious was a little peculiar. At the inquest held Wednesday morning it developed that he had been to Watertown for treatment, but this fact was not generally known and it was believed that he had fully recovered. The body was brought to Rochelle by Coroner Charles P. Unger on Wednesday. Jeanguie's home was in Compton and he is of French parentage.

WHERE'S THE FUN IN CAMPING

AUTOMOBUMMING--A TIP

IF YOU GET IT READY MADE?

There are motor camp kits that are a delight to the eye. Cases and trunks with neat compartments and nicely assorted ware of aluminum or enameled metal.

Much cheaper and perhaps more serviceable is a case of pine lumber made to fit the running board of the car. Build it of half inch stuff, with inch material for ends and bottom. Put on the cover with hinges and hasps which lock down. Divide into two or three compartments. Have one or more of the compartments lined with heavy paper each time you go on a trip. Put two holes through the bottom to correspond with holes in the running board and fasten in place with bolts with wing nuts, for easy removal. Into one compartment can go the food, into another the dishes and cooking utensils and into the third, if there are three, extra clothing. Between this case and the side of the car will lay fish poles, short tent poles, if you carry them, and sundry small articles, and on top of it the shelter canvas can be strapped.

There are wire grills with pointed legs to be shoved into the ground to be mounted over an open fire for

cooking. There are more elaborate camp stoves which fold compactly. A sheet of boiler iron about 14x20 inches smokes the dishes less than the wire grill and proves about as efficient as the folding stove. Get it just heavy enough to be firm under the weight of the cooking dishes. Put a half-inch hole in each corner. Get four legs each 20 inches long, pointed at one end with a nut threaded onto the other end. When this end is inserted in your sheet iron top the nut will prevent it slipping down. Your stove, when you are traveling, will lie under the mat in the tonneau of your car.

It's always well leaving a camp site where kindling is plentiful, to take a little along for the next stop. Sometimes the next stop is late, the fuel is hard to find in the gathering darkness and a quick supper is dependent on a quick fire. If you're just going out from home for a day in the country and a dinner in the open, take along some fuel and be independent. Also take a can of water. Then you may not have to pass up the prettiest camp spot of the day because of lack of either.

24 hours.

A simple system of signalling the fellow in the other machine has been devised by Dr. Theron W. Kilmer of New York City. It is by the use of the fingers of one hand. Put up one finger and it will tell the other fellow he has a flat shoe. Two fingers something wrong with his car. Three fingers, is this the right road to next town. Four, danger ahead. Five, help needed. The standardization and adoption of such a system of signalling would be of considerable help to motorists.

Trucks up to two tons capacity in Norway, must be equipped with pneumatic tires, so as to prevent damage

by way of observing their first wedding anniversary.

Rochelle's oldest resident was 93 years old Saturday, April 24th. In honor of the event a birthday dinner was served at the home of Mr. and Mrs. Charles T. King with Mrs. Elsanor Carrick, the guest of honor.

Among the guests present were Mrs. Elizabeth King, and Mrs. Jennie Linn, of Kings, who are daughters; Mrs. Clint Bailey and Mrs. Daniel Stowell, granddaughters; and Mrs. Henry Bruns, a great granddaughter. Other guests present were Mr. and Mrs. R. W. King and family; Mr. and Mrs. Carroll King; Mr. and Mrs. Charles Drummond and families; Daniel Stowell and Mr. and Mrs. Frank J. King and family.

Mrs. Carrick was born in England and came to America in 1865 and settled in Michigan. Her husband, Henry Carrick died in 1915 at the advanced age of 96. She made her home with her daughter, Mrs. Charles King, for several years.

Announcement is made of the marriage of Miss Pauline Kuhljugen, of Los Angeles, California, and Mr. Daniel J. Hooley, of Rochelle, which occurred at the Holy Name Cathedral Rectory in Chicago at one o'clock, Monday afternoon. Mr. and Mrs.

William Kahler witnessed the ceremony.

The Democratic County Central Committee met in Oregon, Monday afternoon, and perfected their organization. Elections resulted as follows: R. L. Heydecker, of Rochelle, Chairman; and Fred Llewellyn, of Polo, Secretary and Treasurer. The following delegates were selected for the Congressional and State conventions: James P. Wilson, Polo; Martin Eakle, Forreston; E. J. Tilton, Rochelle; Alternates—Pile Denier, Oregon; J. C. Stires, Bryon; Samuel Wills, Holcomb.

The first meeting of the newly organized Woman's Auxiliary of the Rochelle Post of the American Legion will meet in the Chamber of Commerce rooms on Thursday afternoon at 2:30.

OUT OF QUARANTINE.

The Milton Noakes family of Palmyra who have been under quarantine for scarlet fever, were released from quarantine Friday. Mrs. Noakes and two sons were ill. Merrill, the three-year-old boy, is suffering from an infection of the ear which followed the scarlet fever.

300 GET IN ON GOOD ROADS TOUR

year will be the international good roads tour conducted by the Michigan Pike Association. It will start July 14, from this city, and will last two weeks.

Three hundred tourists are expected to participate. Starting from Detroit, the "hike" will lead through Ontario, to the Muskoka lakes district, around Georgian Bay and down through Michigan.

Instead of being a hotel tour, this will be an outdoor, camping experience. For this purpose, trucks will accompany the tourists, carrying all equipment necessary for camping out at stopping points. Besides riding, there will also be exploring and fishing parties during the journey.

Pathfinders have reported the roads good. The trip will cover 1359 miles.

TO DETECT NOISES.

When you hear a noise like a rattling drip pan or loose running boards—and it's hard to tell each apart—get someone to hear heavily on the fender you suspect. If the noise doesn't stop, look for loose bolts in the drip pan.

KEEP CHARGE MODERATE.

Overcharging your battery is as bad as letting it run too low. It overheats and thus shortens its life. If on a long run and there is danger of overcharging the battery, turn your lights, thus taking the load off the battery.

The crankshaft of the Dort engine weighs 47 pounds. It's heavy—more than usual—but the weight is there to give rigidity and freedom from vibration.

The bearings which carry this crankshaft are nothing less than huge. So are the connecting rod bearings. Size—yes oversize—wherever there's a working strain to hold.

The Dort engine is simple, strong, smooth. We hardly need say it is economical. Dort economy is known to everyone.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after a few applications or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for cure, mitigation or prevention of disease.

IF YOU ARE RENTING, and are enjoying (?) that sensation of uncertainty as to how long it will be before the house is sold and you will have to move to—goodness only knows where—come in and see us. We're the easiest people you ever saw to get up to—you don't have to hand us oranges on the end of a fish-pole. Your only regret will be that you didn't get acquainted with us long before.

Speaking of the scarcity of houses to rent reminds us of the experience of one lady who looked up just 48 hours before she found one she could get, and then she had to take a place and let the old rooster who owned it retain a room or two—just think of all that racing around and telephoning and then not being able to get a whole house for her family. Moral: See Sterling!

Will be in the office on Sundays from 10 to 12 in the forenoon and from 2 to 4 in the afternoon, to take care of people who can't get away from their work during the week.
